

ILC 2023

International Lupin Conference XVI

„Breeding, Cultivation and Use of Lupins for a Sustainable Agriculture – Recent Developments“

Brigitte Ruge-Wehling, Florian Haase, Helge Flüß, Anne Zaar

Historie: International Lupin Conference

- **Founded (International Lupin Association)**

1980-04 Lima Peru

- **Aims**

Promote and develop lupin research projects in distinct areas by means of encouraging international cooperation in the study of agronomic, technological, chemical, economic and nutritional aspects of lupin; coordinate extension activities at international level; provide members with updated information on new research findings; facilitate communication among them and with other institutions.

- **Events**
